

Land, Sea, Air, Space Applications

Electroswitch's expertise in designing and manufacturing products to serve diverse and demanding markets has produced a portfolio of products that is unmatched in the industry for variety, reliability and effectiveness.

Typical Military Applications:

AVIONICS

- Wiper controls
- Cockpit toggles / press to test indicator lights
- Rotary solenoid controlled weapon firing systems

NAVAL SHIPS/CRAFT

- Switchboard meter and control switches
- Rotary power select and panel relay switches

GROUND VEHICLES

- Auxiliary lighting control / select switches
- NVG indicator lights
- Turret control switches

MOBILE EQUIPMENT

- Gen Set voltage / phase select switches
- Control panel meter and control switches
- Load bank rotary select switches

Over **60** Years of Trusted Service to the Military

ELECTROSWITCH

Intelligent Solutions for Switching and Control

Electroswitch Expertise

Electroswitch Products

Founded in 1946 as a QPL supplier of rugged high-quality switches to the military, Electroswitch has decades of expertise in designing and building MIL-Spec Digital and Rotary Switches for demanding applications.

*A History of Innovative Engineering
Combined with Exceptional
Manufacturing and Service Capabilities*

Electroswitch is the leader in the design, manufacture and application of the highest quality, most reliable and safest switches and switching products available.

- Extensive switch design, test, development and manufacturing expertise
- Experienced engineering resources supporting complex applications and custom switching configurations
- QPL and Class 1E Nuclear qualified
- Certified to ISO 9001-2000
- Facilities utilizing "Lean Manufacturing" principles and processes
- Vertically integrated manufacturing process providing maximum control over supply chain quality, delivery and cost

Electroswitch product offerings have grown through innovative engineering and the acquisition of several product lines with continued support including Stackpole, Shallcross, CRL / Centralab, ASM, Oak Grigsby and Digitran.

ELECTROSWITCH Switches & Relays

Products designed to MIL Specifications

- MIL-S-216804 – rotary, multi-pole and selector
- MIL-S-15291 – rotary snap action and detent spring return
- MIL-S-6807 – rotary power selector switches
- MIL-S-3786 – low current rotary circuit selector
- MIL-S-83731 – sealed and unsealed toggles
- MIL-L-7961 (MS25041 & MS25331) press to test light indicators
- MIL-L-3661 – indicator light housings, lampholders, and lenses
- MIL-S-18396 – meter and control switches
- MIL-S-22710 – thumbwheel and pushbutton indicating wheel switches

NOTE: MIL DTL may reference -S and -L above.
